# Cat Tracker App

By Carolina Meraz

Statement of Intent

Tracking animals can be useful for our understanding of animal behavior in our cities. Whiskers Tracker is an app designed for cat lovers who wish to track stray, sick, pregnant or even neighborhood cats in their area. By knowing the places that a cat frequents the most, cat lovers can help these cats by providing food in those places, keep a constant check on the cats' health and have a better knowledge of cat population in their respective cities.
